

PRODUCT DETAILS

SHOWER- FULL HEIGHT (FH-S) NEW

NEW PRODUCT DESIGN

The FH Full Height partition system is the perfect system for complete cubicle privacy. The FH system has floor to ceiling panels and doors with clearances of 20mm FFL and 55mm FCL. The 55mm clearance at the top of the doors allows the lift off hinges to function in case of emergency. The FH partition system is the next best thing to an individual room but at a fraction of the cost.

The FH Full Height partition system is the perfect option for unisex cubicles and it complies with the NCC(BCA) 2015 F2.5(a)(i) requirements for unisex facilities. Enhanced privacy and security can be delivered by adding TPI's Modulux Total Privacy Solution which completely eliminates the door gaps.

The system's simple mounting gives the FH an elegant minimalism lifting it above mere utility. If you require a robust, high volume cubicle that sits apart from a standard public toilet aesthetic, the FH is for you.

The FH is anchored directly to the floor and therefore is only available in our waterproof materials: economical compact laminate and prestige polished stone.

Available as Supply & Install only.

How to Specify TPI's Recommended Configuration

How to Specify TPI's Recommended Configuration
