

PRODUCT DETAILS

PRIVACY SCREEN – PEDESTAL MOUNTED CHILDCARE CLASSIC DIVIDERS

Pedestal Mounted Classic Dividers provide safe and private spaces in early learning, childcare, and infant school washrooms, while allowing staff easy access when required. The raised pedestal design allows easy cleaning underneath and promotes airflow, helping teams maintain hygiene in high-use areas.

Panels have a smooth, wipe-clean surface with rounded edges for child-safe use. Constructed from 13mm compact laminate, they have a non-porous, high-density surface that resists water, bacteria, and dirt, making them easy to maintain. They are also durable and resistant to impact and scratches.

Panels are available in a wide range of colours and visual finishes, including solids and woodgrain, providing practical and visually appealing spaces.

Also available in a Floor Mounted design.
